

TELESCOPIC 18-FOOT BANNER POLE

For information, call (919) 786-2748

Installation instructions

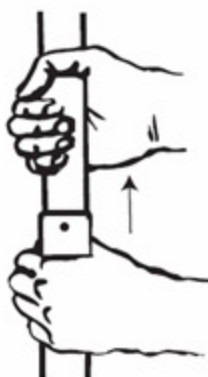

Parts included

1

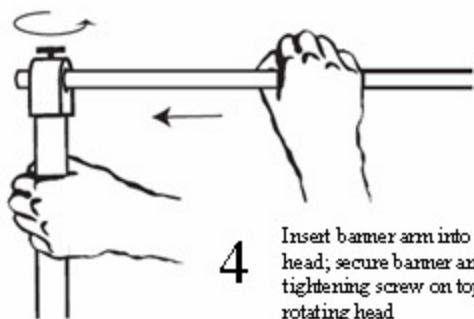

Install the pole in its in-ground PVC sleeve (as per separate instructions) or in one of our special bases (car base in drawing)

2 Pull the higher pole section upward

3

The sections will lock automatically when reaching the end. The pin is guided inside. The lower section to its locking hole. Repeat for each section.

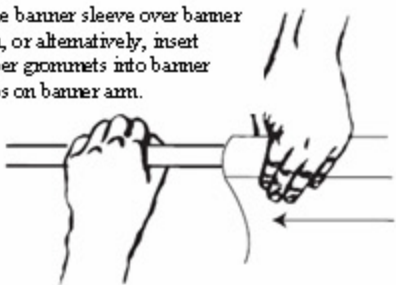

4

Insert banner arm into rotating head; secure banner arm by tightening screw on top of rotating head

5

Slide banner sleeve over banner arm, or alternatively, insert upper grommets into banner clips on banner arm.

6 Insert retaining rings' clips into banner grommets

7

Attach flag weight clip to lower grommet; attach lower retaining ring's clip to weight clip
